“Getting the flu shot every year is the best way to avoid getting the flu, so take time to get your flu shot. Everyone six months and older should get a flu shot each year” states Dr. Julie Vaishampayan, Stanislaus County Public Health Officer.

In addition to getting vaccinated, Public Health Officials recommend everyone help prevent the spread of the seasonal flu by:

- Covering your coughs and sneezes with your sleeve or tissue;
- Washing your hands often. Carrying hand sanitizer with you and using it when you are not able to wash your hands; and
- Staying home if you are sick.
