

**MEMORANDUM OF UNDERSTANDING
BETWEEN
COUNTY OF STANISLAUS
AND
AMERICAN RED CROSS-STANISLAUS COUNTY**

I. Purpose

The purpose of this Memorandum of Understanding ("MOU") is to define a working relationship between The AMERICAN RED CROSS-Stanislaus County and The COUNTY of Stanislaus, California, in preparing for and responding to certain disaster situations. This MOU provides the broad framework for cooperation and support between the RED CROSS and the COUNTY of Stanislaus in assisting and serving the COUNTY of Stanislaus citizens who have been impacted by disaster, as well as other services for which cooperation may be mutually beneficial.

II. Independence of Operations

Each party to this MOU will maintain its own identity in providing service. Each organization is separately responsible for establishing its own policies and procedures and financing its own activities.

III. Authority of Stanislaus COUNTY

The Stanislaus County Office of Emergency Services, under the authority of the Director of Emergency Services (Chief Executive Officer), is the coordinating body for all COUNTY departments and instrumentalities in emergency preparedness, response and recovery. The Standardized Emergency Management System identifies the role of local government to manage and coordinate the overall emergency response and recovery activities within its jurisdiction. The Emergency Services Act defines the operational area as an intermediate level of the State Emergency Services organization consisting of a county and all political subdivisions within the county area.

The COUNTY, through the Director of Emergency Services, represents the Operational Area during a disaster for coordination of emergency activities within the geographic area of the COUNTY and to serve as a link in the system of communications and coordination between the CalEMA Regional Emergency Operations Center ("REOC") and the EOCs of the political subdivisions within the operational area. The COUNTY follows the Stanislaus County Emergency Operations Plan, the Standardized Emergency Management System (herein referred to as SEMS) and National Incident Management System (herein referred to as NIMS), which delineate the emergency response and preparedness responsibilities of the COUNTY offices, departments and instrumentalities.

The following is a partial list of emergency-related authorities which indicate the legal basis for local coordination of emergency operations and activities:

- Homeland Security Presidential Directive 5 – Management of Domestic Incidents (February 28, 2003)
- Homeland Security Presidential Directive 8 – National Preparedness (December 17, 2003)
- California Emergency Services Act (Chapter 7 of Division 1 of Title 2 of the Government Code)
- Standardized Emergency Management System (SEMS) Regulations (Chapter 1 of Division 2 of Title 19 of the California Code of Regulations) and (California Government Code §8607 et sec.)
- Stanislaus County Ordinance on Civil Defense and Disaster Council (Chapter 2.25)
- Stanislaus County Emergency Operations Plan

IV. Organization of the COUNTY of Stanislaus, California

The COUNTY of Stanislaus is a political subdivision of the State of California. The COUNTY government is responsible for the public health of its residents (California Health and Safety Code, section 101025). Under the direction of the Director of Emergency Services and the Stanislaus County Office of Emergency Services, COUNTY staff will participate pro-actively in preparation for disaster response and recovery in the community. During a disaster, COUNTY staff will work within established governmental guidelines, with adherence to SEMS, NIMS, Incident Command System and the Stanislaus County Emergency Operations Plan.

Community Services Agency Staffing and Duties

- A.** The EOC Director determines the extent to which the EOC will be activated and staffed at the time of an event. The Operations Section Coordinator determines the pre-designated Branches and number of staff to be activated, based on the demands of the incident.
- B.** At maximum deployment, the Care and Shelter Branch is staffed by pre-assigned personnel from the Stanislaus County Community Services Agency ("CSA"). The Director, or designee, of CSA serves as the Care and Shelter Branch Director.
- C.** The Care and Shelter Branch coordinates the establishment of shelters for displaced individuals and families in all impacted cities and unincorporated areas of Stanislaus County.
- D.** The Director, or designee, of CSA is responsible to ensure that the COUNTY has formally recognizes the AMERICAN RED CROSS as the local agency responsible to manage disaster shelters.

E. As the Care and Shelter Branch Director at the time of a disaster, the Director, or designee, is also responsible to:

- Populate/staff the Care and Shelter Branch of the COUNTY'S EOC;
- Ensure that appropriate notifications are made (e.g., pre-assigned Branch personnel, Shelter Managers and support staff, shelter site owners/managers, etc.);
- Assess pre-selected shelter sites to identify any facilities that may be inaccessible, damaged, destroyed or unavailable for other reasons; and
- Coordinate with the EOC Logistics Section to coordinate and request the supplies, equipment, food stuffs, etc., needed to support shelter operations.

V. Authority of the AMERICAN RED CROSS

The RED CROSS provides disaster services pursuant to its Bylaws and other internal policies and procedures as well as its Congressional Charter (USC 36 §300101-300111). In the Charter, Congress authorized the RED CROSS "to carry out a system of national and international relief in time of peace, and apply that system in mitigating the suffering caused by pestilence, famine, fire, floods, and other great national calamities, and to devise and carry out measures for preventing those calamities."

The RED CROSS role was reaffirmed in the 1974 Disaster Relief Act (Public Law 93-288), the 1988 Robert T. Stafford Disaster Relief and Emergency Assistance Act (Public Law 100-707), and the The Disaster Mitigation Act of 2000 (Public Law 106-390). The Federal law governing disaster relief USC 42 ..., defines "emergencies" and "major disasters" as follows:

"Emergency" means any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.

"Major disaster" means any natural catastrophe (including any hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought), or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President, causes damage of sufficient severity and magnitude to warrant major disaster assistance under this chapter to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

On a local level, the RED CROSS responds to all kinds of disasters, whether or not they are the subject of a declaration by the President of the United States. The disasters to which the RED CROSS responds include any threatening event of such destructive

magnitude and force as to dislocate people, separate family members, damage or destroy homes, or injure or kill people. A disaster produces a range and level of immediate suffering and basic human needs that cannot be promptly or adequately addressed by the affected people and impedes them from initiating and proceeding with their recovery efforts.

Some disasters are natural disasters, such as floods, tornados, hurricanes, typhoons, winter storms, tsunamis, hail storms, thunderstorms, wildfires, windstorms, epidemics, and earthquakes. Human-caused disasters, which may be intentional or unintentional, include residential fires, building collapses, transportation accidents, hazardous materials releases, explosions, and domestic acts of terrorism. All of these are within the RED CROSS mission.

VI. Organization of the AMERICAN RED CROSS

The national headquarters of the RED CROSS is located in Washington, D.C. National headquarters is responsible for implementing policies and procedures that govern RED CROSS activities and provides administrative and technical supervision and guidance to the chartered units, which include chapters and blood services regions. Each chapter has certain authority and responsibility for carrying out RED CROSS disaster preparedness and response activities, delivering local RED CROSS services, and meeting corporate obligations within the territorial jurisdiction assigned to it. Each chapter is familiar with the hazards of the locality and surveys local resources for personnel, equipment, supplies, transportation, emergency communications, and facilities available for disaster relief. The chapter also formulates cooperative plans and procedures with local government agencies and private organizations for relief activities should a disaster occur.

Through its nationwide organization, the RED CROSS coordinates its total resources for use in large disasters. In order to provide these services, the RED CROSS may call on the Federal, state or local government for assistance when voluntary contributions do not meet the level of needed services. These requests may be in the form of direct financial assistance, reimbursement for services, and/or an agreement to purchase necessary commodities to fulfill the needs of citizenry impacted. Services are provided to those in need regardless of citizenship, race, religion, age, sex, or political affiliation. In providing disaster services, the RED CROSS follows the Fundamental Principles of the International RED CROSS and Red Crescent Movement.

VII. General Methods of Cooperation

COUNTY activities will be shared across several departments, as described in Attachment A – Detailed Scope of Work. So that the resources of the AMERICAN RED CROSS and the COUNTY may be coordinated and used to the fullest advantage in preparedness and in rendering disaster relief, both organizations have agreed to the following:

- A.** Close and ongoing liaison will be maintained between the AMERICAN RED CROSS and the COUNTY by conference, telephone, fax, and other means. Each organization will share resource information and current data during all pre-disaster planning and preparation, when disaster declarations are made, and when changes occur in legislation. Each organization may share reports during the conduct of disaster operations.
- B.** Each organization will participate, as resources allow, in joint training courses, exercises, and other cooperative efforts, such as emergency and disaster preparedness planning and/or the provision of disaster relief services. The AMERICAN RED CROSS will provide training for COUNTY staff who may be assigned to AMERICAN RED CROSS operations.
- C.** In particular, the AMERICAN RED CROSS will work within SEMS and the Incident Command Structure established by the EOC or the Stanislaus County Office of Emergency Services in preparedness, planning, response and recovery efforts. Consistent with NIMS and SEMS, the AMERICAN RED CROSS will also coordinate with the Stanislaus County Community Services Agency and its subdivisions and other COUNTY instrumentalities as appropriate in preparedness, planning, response and recovery efforts. The AMERICAN RED CROSS recognizes COUNTY staff as a resource whose skills are readily adaptable to AMERICAN RED CROSS relief assistance programs, as it relates to care and shelter.
- D.** The AMERICAN RED CROSS will provide training, as resources allow, to any COUNTY employee, agency, department or instrumentality that has emergency response responsibilities under NIMS/SEMS, particularly, but not necessarily limited to, sheltering.
- E.** Consistent with its Humanitarian Mission, the AMERICAN RED CROSS will support, to the best of its ability and in accordance with its established policy, procedures and guidelines, Federal, State and County government efforts to alleviate suffering to all human beings resulting from disasters or other emergency situations (including war caused). Response by the AMERICAN RED CROSS to disasters and other emergencies does not require a governmental declaration of any type. Regardless of the size of the disaster or emergency, or the number of families affected, all assistance will be provided on a uniform basis. All AMERICAN RED CROSS assistance to victims of a disaster or emergency is an outright gift. No payment is ever required or requested.

This assistance will be limited to immediate, unmet, disaster caused needs including, but not necessarily limited to, shelter, food, clothing, and basic living items. AMERICAN RED CROSS assistance is not insurance and does not replace items or income lost in a disaster.

In those instances where the COUNTY will be providing emergency assistance to the public, especially shelter, food, clothing, and basic living items, the AMERICAN RED CROSS will coordinate with the COUNTY and provide assistance, as resources and the law allow.

- F.** The AMERICAN RED CROSS is not a licensed care provider and does not have the authority or ability to supersede governmental authority in matters pertaining to public health and services requiring licensure or other governmental oversight, as excerpted by law. As such, the AMERICAN RED CROSS will cooperate with the COUNTY to ensure that AMERICAN RED CROSS services are safe and do not jeopardize the health of the public.
- G.** The COUNTY recognizes that in times of natural disasters and emergencies, the AMERICAN RED CROSS has the responsibility for meeting urgent and emergency needs of victims for shelter, food, clothing, and basic living items in congregate care or other facilities; disaster welfare inquiry, emergency first aid and other basic elements for human comfort and survival.
- H.** The COUNTY will coordinate the capability of all COUNTY departments to respond to disasters and emergencies of all types as outlined in local ordinance, the State Emergency Services Act, SEMS and Public Law 93-288 and 100-707.
- I.** The COUNTY will continue to provide mandated public assistance service during a disaster situation or a declared emergency.
- J.** The COUNTY will provide needed staff, as available, and to the extent permitted by State law, to assist the AMERICAN RED CROSS in disaster and emergency operations. Staff salary and benefits will be provided by the COUNTY in both preparedness training and operational assignments.
- K.** To the extent the provision of Emergency Welfare Services (EWS) falls within the authority of State supervised and COUNTY administered public social services, and in the event of a declared state of emergency, and pursuant to the rules and regulations of the California Emergency Council, State, regional and COUNTY government employees may become disaster workers; duties may include support of the AMERICAN RED CROSS.
- L.** The COUNTY will work with the AMERICAN RED CROSS in times of disaster and emergency in the coordination of other private agencies, as it relates to care and shelter.
- M.** Administrative and financial control of the AMERICAN RED CROSS disaster and emergency related services may not be delegated or assumed by other entities. Individuals and organizations, including government, may not represent the AMERICAN RED CROSS without prior agreement and approval by the AMERICAN RED CROSS.

- N.** Both the AMERICAN RED CROSS and the COUNTY, in recognition of their responsibility to their volunteers, their staff and the community they serve, reaffirm their policy to assure fair and equal treatment in all their practices, for all persons. The AMERICAN RED CROSS and the COUNTY will not discriminate on the basis of sex/gender, race, color, religion, national origin, ancestry, pregnancy, age, marital status, sexual orientation, medical condition, veteran status, nor against any qualified individual with physical or mental disability(ies), disabled veteran or veteran of the Vietnam War.
